SecureTrust™ Services and Solutions

METHODOLOGY, EXPERIENCE, TECHNOLOGY

SecureTrust™, a Trustwave division, is committed to addressing security, risk and privacy challenges by providing industry-leading compliance and risk management solutions. SecureTrust delivers world-class security consulting, compliance and risk assessment services as well as tailored risk management programs for merchant sponsors and payment service providers around the globe.

As a payments industry pioneer, having delivered the most payment card industry data security standard (PCI DSS) reports on compliance and certified the most payment applications in history, SecureTrust has the methodology, experience and technology to help you reduce cost, reduce risk and gain the highest level of value.

COMPLIANCE AND RISK FOR ENTERPRISE

Manage security, risk and privacy challenges with the most experienced consulting team backed by our proprietary software, Compliance Manager, to track and manage engagements.

- #1 Qualified Security Assessor in the world
- Pioneered the Payment Card Industry Data Security Standard
- Most PCI DSS Reports on Compliance (ROC) issued in history

PROGRAMS FOR ACQUIRERS, PROCESSORS AND ISOs

Maximize returns from your merchant portfolio with a scalable, multi-tenant solution to offer your merchants the latest security and risk management products.

- +2 million Merchant IDs monitored
- Minimize churn with stickiness
- Add revenue for your business

WEB RISK MONITORING

Employ proprietary risk management solutions to streamline your compliance and reduce risk by scanning websites for bad business practices and security flaws. And, SecureTrust is a Certificate Authority for issuing digital certificates.

- MasterCard & Visa certified
- Scan websites for content and security
- Detect transaction laundering
